

JADEPROTEC® MULTISHIELD PP INDUSTRY.

Resource-saving fibre based laminate with moisture and grease barrier

Board laminated with ultra thin PP / PET layer, for highest demands on clean surfaces as well as zero abrasion. Qualified for use in the glass industry (dividers and interlayers), and in the production of plastic sealings in the automotive industry. Minimal use of film (4 µ) for optimum surface properties while reducing the use of plastics. Proportion of secondary fibres in the product up to 99%, making it particularly sustainable. Temperature resistant up to 160 degrees. Humidity resistant, with excellent properties in converting.

plastic reduction

Foodsafe

100% recyclable

Applications

Compartments, interlayers, folding cartons, paper and board converting.

Standards

Varieties	PP / PET
Grammage	300 gsm; 380 gsm; 400 gsm; 580 gsm; 600 gsm
Material	Recycled board, PET / PP film
