

JADEPROTEC® OVENSAFE.

Oven-safe, thermoformable board laminate for replacing conventional PET dishes and trays, for dry, moist and fatty foods. Suitable for ready meals and fast food. JadeProtec® OvenSafe is the ideal board for baking directly in the primary packaging. Sealable.

Heat resistant up to 220 degrees for 90 minutes, food safe, thermoformable, provides an excellent migration barrier against moisture and fats. The barrier layer, fiber-free surface and high temperature resistance make JadeProtec® OvenSafe the ideal board for baking directly in the tray.

plastic reduction

Foodsafe

100% recyclable

Applications
