

JADEPROTEC® MULTISHIELD S.

Highly effective composite material with internal barrier of ultra-thin film. Fully recyclable because separable in paper processing. Not extruded.

Highly efficient, optimized board laminate for technical packaging requirements with excellent migration barrier against moisture, gases and greases. The invisible barrier layer and high resistance to gases make Multishield S an invisible all-rounder in the packaging sector. Recyclable, minimal polymer content. The proportion of secondary fiber in the composite is up to 99%, making JadeProtec® Multishield S particularly sustainable.

plastic reduction

Foodsafe

100% recyclable

Applications

Board for use in food packaging, detergent packaging, as disposable packaging for fast food or for the production of disposable tableware (plates, trays, underlayers, folding boxes, interlayers, honeycomb panels, display). Minimal use of film for optimum barrier function. Suitable for direct food contact. High temperature resistance, suitable for product use from -20°C to +160°C.

Standards

Varieties	Rolls, sheets; brown / brown; white / brown; white / white
Grammage	100 gsm, 140 gsm; 410 gsm; 420 gsm; 470 gsm; 500 gsm; 520 gsm
Material	kraft paper / recycling paper / ultrathin PP PET
