JADEPROTEC® MULTISHIELD PP.

Resource-saving composite material with moisture and grease barrier. Minimized plastic use. Recyclable.

Fibre-based laminate for use in food packaging, as disposable packaging for fast food or for the production of disposable tableware (plates, trays). Minimal use of film (4 my) for optimum barrier function. Proportion of secondary fibres in the product up to 99%, making it particularly sustainable. Suitable for direct food contact. Suitable for use in temperatures from -20°C to +160°C.

plastic reduction

Foodsafe

100% recyclable

Applications

Folding cartons, paper/board processing, converting. Especially suitable for packaging of moist, hot/cold and/or greasy food and pet food. Liners for display applications, honeycomb panels.
