

# JADEPROTEC® MULTISHIELD PP

Resource-saving fibre based laminate with moisture and grease barrier

CHEMICAL RESISTANT DIRECT FOOD CONTACT

GREASE-PROOF PRINTABLE RECYCABLE

TEMPERATURE-PROOF WATER-PROOF

Fibre-based laminate for use in food packaging, as disposable packaging for fast food or for the production of disposable tableware (plates, trays). Minimal use of film (4 my) for optimum barrier function. Proportion of secondary fibres in the product up to 99%, making it particularly sustainable. <br /> /> Suitable for direct food contact. Suitable for use in temperatures from -20°C to +160°C.

## APPLICATION

Folding boxes, dividers, honeycombs, paper/cardboard converting. Particularly suitable for packaging of moist, hot/cold and/or fatty food and pet food.<br />

## PORTFOLIO

- Laminate based on recycled or virgin fibres
- Fibre-free surface
- Fibre content up to 99 percent
- Water-proof
- Grease-proof
- Very good printability
- Excellent processing properties
- Temperature-proof min -20 °C / max. +160 °C
- Grammage 80 g/m<sup>2</sup> – 850 g/m<sup>2</sup>
- Reel width 800 mm – 1650 mm
- Reel diameter 800 mm – 2100 mm
- Sheets for converting
- Formats, punched blanks or intermediate layers

## CERTIFICATIONS

- Certified for direct food contact
- Fibre FSC®-certified
- Product 100% recyclable
